**PINE TECHNICAL & COMMUNITY COLLEGE
CONTINUING EDUCATION AND CUSTOMIZED TRAINING
OFFERS:**

CONTRACTOR CONTINUING EDUCATION TRAINING

2019 AMBO Contractor Training Seminar Series

**Monday, January 7, 2019
7:30am – 4:30pm
Pine Innovation Center**

**Egress Provisions of the 2015 MN Residential Code, Alternate Materials & Methods,
plus MN Residential Energy Code**

This interactive seminar is divided into three sessions. Part I will take an in-depth view of residential code requirements and best practices for stairways, landings, guards, handrails, etc. Illustrations will represent everyday problems and serve as the basis for discussion and resolution to the problems of the means of egress for dwellings. Part II will take a look at the use of alternate methods and materials and how jurisdictions document related code requirements. Attendees will be able to identify references required for alternate methods, determine acceptable testing materials, and compliance with the intent of the code. Part III will wrap up the day with 1 hour of the MN Residential Energy Code. Participation in discussions and Q & A is encouraged through the use of photographs of real-life installations, both correct and incorrect.

Instructor
Roger Axel, C.B.O.

Roger Axel has a Bachelor of Science Degree in Industrial Education from the University of Minnesota and an Associate in Applied Science Degree in Building Inspection Technology. He holds a Building Official certification from the State of Minnesota.

He has 20 years' experience as an adult educator, and is also a contract instructor for the International Code Council; an adjunct faculty member of the Minnesota State College & University System.

Roger has been an active member of the Minnesota Building Permit Technicians Association, Upper Great Plains Region III, Association of Minnesota Building Officials and the 10,000 Lakes Chapters of ICC.
