Community College

CONTINUING EDUCATION  
& CUSTOMIZED TRAINING

## **Firefighter Cancer Awareness** *Continuing Education & Customized Training*

### **Firefighter Cancer Awareness**

Cancer is an ever-present danger that firefighters are encountering in today's modern fires. Our course is designed to offer firefighters and department personnel of all levels a basic awareness, understanding and preventative measures to begin reducing your risk today. This course was developed upon research including: Firefighter Cancer Support Network, IAFF, and the National Fallen Firefighters Foundation.

Three-hour course is designed in three modules:

1. **What is Cancer**- *A basic description and understanding*
2. **Cancer within the Fire Service**
3. **What can we do now**- *A Cultural Shift for the Fire Service safety Regulations.*

#### **Class Date and Time:**

**Monday, May 8, 2017 6:00 pm – 9:00 pm**

#### **Class Location:**

**Pine Technical & Community College  
Pine Innovation Center Building  
Classroom 7107  
Pine City, MN 55063**
