Subject: Hiring Process

Authorities: Joe Mulford, President

Purpose: The hiring of qualified personnel is one of the most critical functions that College managers can perform. To this end, Pine Technical and Community College establishes this structure and process for the hiring of all personnel in the College. This policy will guide the orderly conduct of the hiring system that will ensure the role we view of candidates within the parameters established by federal and state laws.

Policy: The hiring manager will follow a logical sequence of hiring actions in collaboration with the Human Resources (HR) Department when hiring for a “new position” or “filling a vacant position”. The hiring process will be conducted through a committee structure, utilizing review instruments for applications and resumes and for interviews. These instruments will establish a scoring process so that all committee members will be reviewing candidates and their documentations on the same standards. This process will culminate in a hiring decision based upon thorough review of a candidate's paper work and interview performance.

Procedure: The details of the duties/tasks and the person responsible for each is delineated in sequential order: (continued on next page)
