

Pine Technical &
Community College

American Sign Language

• Certificate

The American Sign Language Studies certificate provides students with the knowledge and skills of American Sign Language (ASL). The curriculum provides a basic foundation for entry into a career in a deafness-related field and prepares students for continued educational studies in a Sign Language Interpreter Program. Individuals who currently work, or intend to work, with Deaf and/or Hard-of-Hearing individuals in fields such as education, human/social services, community service agencies, and vocational rehabilitation benefit from the opportunity to learn and develop stronger skills in American Sign Language. The program is offered part-time over a two-year period. This certificate is also an excellent complement to the Associate of Arts degree.
