

JOB TITLE:

Pine Technical &
Community College
CAREER SERVICES

PUBLIC HEALTH NURSE

COMPANY NAME

Kanabec County
Community Health

JOB DESCRIPTION

This will be a full-time position working across both family health and adult health. Position will include family home visiting focused on prenatal/pregnant women and families with young children using an evidence-based curriculum. The position will also include the provision of care coordination and case management to members in the community in the nursing home or living independently in their own homes. The goal of care coordination and case management is to help develop and coordinate person centered plans with individuals, their families, and support network that allows the individual to improve their quality of life through prevention or management of chronic illness and connection to resources to help them meet their needs.
