Postsecondary Registration Verification

Minnesota Statutes, section 124D.09, subdivision 7, requires public school students to inform the district by May 30 or Oct 30 of each year of the pupil’s intent to enroll in postsecondary courses during the following school year to assist the district in planning. A pupil is bound by notifying or not notifying the district by May 30 or Oct 30, unless the public school district has waived the deadline as indicated in Section 2. A public school student who has not met this requirement is not eligible for PSEO funding.

Minnesota Statutes, section 124D.09, subdivision 5, requires the institution to send written notice to the student and the student’s school or district. The notice must indicate the course and hours of enrollment of that pupil.

My signature below indicates all statements below are true:

1. The student identified in Section 1 is registered this term for the courses indicated above, all courses are nonsectarian in content and are not remedial or developmental.
2. The student has indicated to me the courses above are to be taken for both secondary credit and fulfill the student’s high school graduation requirements.
3. MDE may request a data sampling of postsecondary institution NOSR forms as part of a PSEO desk audit request.

Postsecondary Enrollment Options Early/Middle College Program

Student Eligibility - Refer to Minnesota Statutes, section 124D.68, and section 124D.09

Students are considered eligible if they are enrolled full-time in a core school day State-Approved Alternative Program under the graduation incentives program as defined by the Minnesota Department of Education. Full-time enrollment in the SAAP means the student is not also enrolled in high school courses at the traditional high school.

- A. A student must be enrolled in school in the 11th or 12th grade;
- B. A student who enters the program:
 - a. At the **beginning** of the 11th grade year may continue in the program for the equivalent of two academic high school years, except for state approved Learning Year Programs pursuant to Minnesota Statutes, section 124D.128.
 - b. At the **beginning** of the 12th grade year a student may continue in the program for the equivalent of one academic high school year.
 - c. Summer sessions will not be counted against the time of participation.
 - d. If a school district determines a pupil is not on track to graduate, the limit on participation does not apply to that pupil. This decision is made on a term-by-term basis.
 - e. A pupil who has received their diploma is not eligible to participate.
 - f. A pupil who has completed requirements for graduation but who has not received a diploma may participate in the program.
- C. For purposes of determining PSEO eligibility, the student must have reduced instructional time in the secondary setting. Students cannot access PSEO on top of a full course load at the state approved alternative program.
- D. In either case, if the student first enters the program during the academic year, the window of opportunity is reduced proportionally.
- E. If a student withdrew from high school for medical or other unavoidable reasons prior to the beginning of the postsecondary institution's 2nd semester and generated no general education revenue through the remainder of the school year after withdrawal, the student would be eligible to extend eligibility by one semester.
