

# CNC Lathe Machinist

Pine Technical &  
Community College  
Community Job Board

## COMPANY NAME

**Aurelius Manufacturing, Inc., Braham, MN**

## DESCRIPTION

The CNC Lathe Setup / Operator is responsible for setting up CNC machines according to blueprint specifications, and selecting the appropriate fixtures, cutting tools, attachments and materials. After manufacturing the product, the machinist checks with precision measuring tools to ensure all specifications are met, making adjustments as necessary.

## QUALIFICATIONS

- Ability to operate CNC lathes.
- Set up and run quality first part
- Experience preferred but not required
- High school diploma or equivalent preferred but not required.
- Previous training or technical certification a plus.
- Experience interpreting blueprint dimensions and using measuring tools (micrometers, calipers, precision dial gauges)
- Strong attention to detail.
- Strong team player and self-motivator.
- Actively seek to improve processes and find better ways to work, contributing to a culture of innovation and continuous improvement.
- Ability to embrace and demonstrate the company's values of respect, integrity, hard work, safety, and teamwork in all interactions and activities.
